

Design attracts the audience, sparks excitement and it can make you feel the dirt grinding between your teeth or makes you smell of burning rubber.

+ Graphic Designer / motorbike m/f

speed

You are in-deep with the world of motorbikes and motocross. Dirt and high speeds are what drive you. In addition to your passion, you develop product folders and deliver communication concepts, and manage everything in between with attention to style.

a joint approach

At KISKA you will work on delivering integrated solutions in a creative environment alongside 110 creative specialists from more than 20 nations, including:

- ▶ Communication designers, conceptionists and copywriters
- ▶ Photo and video team
- ▶ Desktop publishers
- ▶ Digital communication experts including developers and screen designers
- ▶ Product and transportation designers
- ▶ Racing car drivers, rally drivers, free- and test riders

Petrol in your veins

In a team of young designers, you will autonomously analyze, conceptualize and create individual projects. From the first sketch to the final presentation you will be in charge of cutting edge communication tools, which have positioned our clients' communications materials as the benchmark for the motorbike industry.

action

KISKA's team of creative professionals works together with our clients in a purpose-built 5,000 square meter building located at the foot of Mount Untersberg, just outside of beautiful Salzburg, Austria. Highlights of the area include:
